

RECSER OY PRICE LIST FROM 1.7.2026

The fees collected from producers are used to cover the costs of collecting, transporting, processing and recycling used batteries, as well as information provision. The fees are also used to cover the costs of supervising and instructing the collection and recycling network, official reporting, producer services, financial administration and lobbying, and to meet the legally prescribed solvency requirement.

VAT will be added to the prices in accordance with the regulations in force.

Recser Oy will invoice companies for any administrative costs incurred from the collection of overdue reports in accordance with the terms of agreement (€150 / reminder invoice).

REGISTRATION FEE

A one-off registration fee is collected from each producer when registering as a producer or in connection with additional registrations concerning product groups.

PRODUCT CODE	DESCRIPTION	FEE
Registration fee A	Registration fee for portable batteries ¹	€300
Registration fee B	Registration fee for industrial batteries ² , LMT ³ and/or SLI batteries ⁴	€500
Registration fee C	Registration fee for portable batteries + industrial batteries, LMT and/or SLI batteries	€700
Registration fee D	Registration fee for adding new categories to the agreement	€200

ANNUAL FEES FOR INDUSTRIAL AND SLI LEAD-ACID BATTERIES

Recser Oy charges an annual fee to producers of industrial and SLI lead-acid batteries and forwards it to Akkukierrätys Pb Oy. The annual fee is based on the number of batteries placed in the market in the previous year.

PRODUCT CODE	DESCRIPTION	FEE
Annual fee D	Minimum recycling fee for producers of industrial and SLI lead-acid batteries (less than 1,000 kg/year brought to the market)	€120
Annual fee E	Minimum recycling fee for producers of industrial and SLI lead-acid batteries (1,000–10,000 kg/year brought to the market)	€130
Annual fee F	Minimum recycling fee for producers of industrial and SLI lead-acid batteries (10,000–100,000 kg/year brought to the market)	€160

Annual fee G	Minimum recycling fee for producers of industrial and SLI lead-acid batteries (100,000–1,000,000 kg/year brought to the market)	€220
Annual fee H	Minimum recycling fee for producers of industrial and SLI lead-acid batteries (more than 1,000,000 kg/year brought to the market)	€450

RECYCLING FEES

Recycling fees are invoiced based on the weight of the batteries made available on the market, as reported by the producer.

PORTABLE BATTERIES (UNDER 5 KILOS)

PRODUCT CODE	REPORTING CLASS	FEE
11101	Portable alkaline batteries	€1.52/kg
	Alkaline, zinc-carbon, zinc air and similar primary batteries (AAA, AA, C, D, etc.)	
11201	Portable lithium batteries	€6.00/kg
	Lithium button cells and other lithium primary batteries (non-rechargeable)	
11301	Portable silver oxide batteries	€0.40/kg
	Silver oxide batteries for watches, calculators, etc.	
15201	Portable lithium-ion batteries (LCO)	€0.45/kg
	Cobalt-containing lithium-ion batteries (e.g. the batteries of mobile phones, laptop computers and other portable IT devices and digital cameras, incl. cathode materials LCO)	
15202	Portable lithium-ion batteries (LMO, LTO, NMC, LFP, etc.)	€1.10/kg
	Other lithium-ion batteries than those mentioned in product group 15201 (e.g. the batteries of electric and electronic tools).	
15101	Portable nickel-metal hydride batteries (NiMH)	€0.35/kg
15301	Portable sodium-ion batteries (Na-ion, NaS, Na-NiCl)	€1.60/kg

LIGHT MEANS OF TRANSPORT BATTERIES (LMT) (UNDER 25 KILOS)

PRODUCT CODE	REPORTING CLASS	FEE
25101	Lithium-ion batteries for light means of transport	€1.60/kg
	Incl. traction batteries for electric means of transportation, such as electric bicycles and electric scooters, etc.	
25999	Other batteries for light means of transport	€1.60/kg

SMALL INDUSTRIAL BATTERIES (UNDER 50 KILOS)

PRODUCT CODE	REPORTING CLASS	FEE
41101	Small industrial alkaline batteries	€1.52/kg
45101	Small industrial lithium-ion batteries (LFP)	€1.60/kg
45102	Small industrial lithium-ion batteries (NMC, NCA)	€1.60/kg
45103	Small industrial lithium-ion batteries (LMO)	€1.60/kg
45104	Small industrial lithium-ion batteries (LTO)	€1.60/kg
45201	Small industrial nickel-cadmium batteries (NiCd) – pocket plate design	€0.35/kg
45202	Small industrial nickel-cadmium batteries (NiCd) – sintered plate design	€0.35/kg
45203	Small industrial nickel-cadmium batteries (NiCd) – fibre plate design	€1.75/kg
45301	Small industrial nickel metal hydride batteries (NiMh)	€0.35/kg
45401	Small industrial sodium-ion batteries (Na-ion, NaS, Na-NiCl)	€1.60/kg
45999	Other small industrial batteries	€1.60/kg

LARGE INDUSTRIAL BATTERIES (OVER 50 KILOS)

PRODUCT CODE	REPORTING CLASS	FEE
51101	Large industrial alkaline batteries	€0,75/kg
55101	Large industrial lithium-ion batteries (LFP)	€0,50/kg
55102	Large industrial lithium-ion batteries (NMC, NCA)	€0,30/kg
55104	Large industrial lithium-ion batteries (LMO)	€0,50/kg
55103	Large industrial lithium-ion batteries (LTO)	€0,50/kg

30 March 2026

55201	Large industrial nickel-cadmium batteries (NiCd) – pocket plate design	€0.35/kg
55202	Large industrial nickel-cadmium batteries (NiCd) – sintered plate design	€0.35/kg
55203	Large industrial nickel-cadmium batteries (NiCd) – fibre plate design	€1.75/kg
55301	Large industrial nickel-metal hydride batteries (NiMh)	€0,30/kg
55401	Large industrial sodium-ion batteries (Na-ion, NaS, Na-NiCl)	€0,50/kg
55999	Other large industrial batteries	€0,75/kg

INDUSTRIAL LEAD BATTERIES (REGARDLESS OF SIZE)

PRODUCT CODE	REPORTING CLASS	FEE
7004	Industrial lead batteries (Pb)	-
	All industrial lead batteries that are specifically designed for industrial uses. Recser Oy forwards information to Akkukierrätys Pb Oy, which takes care of collecting and recycling industrial lead batteries.	

STARTING, LIGHTING AND IGNITION BATTERIES (SLI BATTERIES)

PRODUCT CODE	REPORTING CLASS	FEE
35101	Lithium-ion SLI batteries	€1.60/kg
35201	Sodium-ion SLI batteries (Na-ion, NaS, Na-NiCl)	€1.60/kg
35999	Other SLI batteries	1,60 €/kg
7001	Lead SLI batteries	-
	Recser Oy forwards information to Akkukierrätys Pb Oy, which takes care of collecting and recycling lead SLI batteries.	

DEFINITIONS

1) Portable battery

‘Portable battery’ means a battery that is sealed, weighs 5 kg or less, is not designed specifically for industrial use and is neither an electric vehicle battery, an LMT battery, nor an SLI battery (Regulation (EU) 2023/1542 of the European Parliament and of the Council).

2) Industrial battery

‘Industrial battery’ means a battery that is specifically designed for industrial uses, intended for industrial uses after having been subject to preparation for repurposing or repurposing, or any other battery that weighs more

30 March 2026

than 5 kg and that is neither an electric vehicle battery, an LMT battery, nor an SLI battery (Regulation (EU) 2023/1542 of the European Parliament and of the Council).

Small industrial battery

A “small industrial battery” is a battery defined as an industrial battery that is non-lead-based and weighs between 0–50 kilograms.

Large industrial battery

A “large industrial battery” is a battery defined as an industrial battery that is non-lead-based and weighs more than 50 kilograms.

Lead industrial battery

A “lead industrial battery” is a battery defined as an industrial battery that is lead-based.

³⁾ Light means of transport battery (LMT battery)

‘Light means of transport battery’ or ‘LMT battery’ means a battery that is sealed, weighs 25 kg or less and is specifically designed to provide electric power for the traction of wheeled vehicles that can be powered by an electric motor alone or by a combination of motor and human power, including type-approved vehicles of category L within the meaning of Regulation (EU) No 168/2013 of the European Parliament and of the Council (43), and that is not an electric vehicle battery (Regulation (EU) 2023/1542 of the European Parliament and of the Council).

⁴⁾ Starting, lighting and ignition battery (SLI battery)

‘Starting, lighting and ignition battery’ or ‘SLI battery’ means a battery that is specifically designed to supply electric power for starting, lighting, or ignition and that can also be used for auxiliary or backup purposes in vehicles, other means of transport or machinery (Regulation (EU) 2023/1542 of the European Parliament and of the Council).
